**4. Description of the subject of the market research:**

The subject of the market research is to determinate the estimated price for Breeding Aviary for Laying Hens and Feeding and Watering System, which will contribute to increasing efficiency for the operation of Hydina Furajtár s.r.o.

*The subject definition of market research is given in Annex no. 1 Detailed technical description and data declaring the technical parameters of delivered subject.*

The project is co-financed by the Rural Development Program of the Slovak Republic 2014 – 2020, measure: 4 – Investments in tangible assets, Sub-measure: 4.1 – Aid for investment in agricultural holdings, call no. 52/PRV/2022.

**5. Price and method of determining the estimated value of the contract:**

The tenderer must evaluate the entire subject of the contract, the tender submitted for only a part of the subject of the contract will not be included in the evaluation and will be treated as if it had not been submitted.

Each tenderer submits only one tender.

If the tenderer is not a VAT payer, he shall state this fact in his tender.

The estimated value of the contract will be determined as the arithmetic average of the submitted bids excluding VAT in accordance with PPA Guideline no. 8/2017 on the procurement of goods, construction works and services financed from the RDP 2014-2020, as amended by update no. 4 and later updates.

**6. Method and instructions for submitting proposals**

At the same time, the proposer submits a price offer, which must be comprehensive for the entire subject (ie the entire logical unit), ie for all items listed in Annex no. 1, filling in:

- Identification data of the tender participant
- Name of the manufacturer, type designation of the offered technology
- Unit price in EUR without VAT
- Place and date of preparation of the offer
- Stamp, signature

The price offer submitted by the tenderer must be signed and stamped by the tenderer's representative in the market survey (a scan of the original is submitted).

**7. Deadline for submission of proposals**

The proposer shall submit the proposal exclusively via the JOSEPHINE electronic procurement system by 17th June 2022.

**8. Method and instructions for submitting proposals**

Proposals must be submitted exclusively through the JOSEPHINE electronic procurement system <https://josephine.proebiz.com>, within which you have also received this Call for Proposals – market research with the aim to determine the estimated value of the contract.

Proposals may only be submitted to registered tenderers.

The required scanned documents (recommended format „PDF“) must be attached to the submitted through the JOSEPHINE electronic procurement system.

The prices proposed will be expressed in EUR (Euros) to 2 decimal places.

If a specific manufacturer, production process, trade name, patent, type, area of place of origin of production has been used in the description of the subject of this call for tender, the tenderer may also submit a tender for the technical and functional equivalent. The equivalent offered must have the same or better technical and utility parameters.
