

I. ODDYCHOVÁ ZÓNA S PRÍSTREŠKOM A DETSKÝM IHRISKOM

The diagram illustrates a cross-section of a park area. On the left, a shelter with a flat roof is shown on a level ground at elevation -3.780. A person is standing near it. To the right, the ground slopes upwards. A small structure, possibly a bench or a play element, is at elevation -3.540. Further up the slope, a person is sitting on a bench. A play structure, resembling a slide or a climbing frame, is at elevation -1.502. The slope continues to rise, with a person standing near a tree at elevation +0.991. Another person is standing near a tree at elevation +1.488. The ground is shaded with diagonal lines, and the sky is white.

II. FUTBALOVÉ IHRISKO

The diagram illustrates the cross-section of a football pitch area. The terrain is shown with a hatched ground profile. Key elevation points are marked: -3.530, -3.205, ± 0.000, +2.000, and +2.615. The pitch itself is at the ± 0.000 level. Landscaping includes several trees of varying sizes and shapes, some benches, and a small structure near the +2.000 elevation. Human figures are placed throughout the scene to provide scale and context.

III. WORKOUT

The diagram illustrates a cross-section of a park layout for a 'WORKOUT' area. The terrain is sloped, with various features and elevation markers. From left to right, the elements include:

- A tree at an elevation of -3.350 .
- A person walking on a path.
- A ramp or slope.
- A person climbing a structure at an elevation of -0.480 .
- A person in a wheelchair.
- A person sitting on a bench at an elevation of ± 0.000 .
- Another tree.
- A final tree at an elevation of $+1.735$.

The ground is indicated by a hatched pattern.
