Statement about the identity of Helix ultra and Stabimed ultra

Hereby we confirm that the products

Helix ultra

and

Stabimed ultra

have an identical composition.

Therefore all product information and expert reports prepared for Helix ultra are valid also for Stabimed ultra (and vice versa). Please note, due to formal quality assurance reasons – especially considering formal GLP requirements – not all expert reports can be rewritten from Helix ultra to Stabimed ultra.

The different labels haven't any impact to the use and the product quality.

If there are any questions concerning these issues please do not hesitate to contact B. Braun Medical AG.
