Sub: "Tender for Genotyping of the Holstein breed of cattle II"

Dear Sir / Madam,

This is to inform you that we would like to submit a Tender proposal for "**Tender for Genotyping of the Holstein breed of cattle II**". Nucleome Informatics Private Limited is the only company in India to offer **Next Generation Sequencing** services using short read genome sequencer **Illumina NovaSeq 6000 (qty. 2), HiSeq 2500(qty. 2) and long read genome sequencer PacBio Sequel II (qty. 1) and Gene Titan**. We also have India's first **AgilentFEMTO Pulse and Megarupture 3** for ultra-high molecular genomics DNA QC and library preparation. Nucleome also houses **India's largest HPC** available with any private genomics company which is capable of analyzing 96 human genomes in a day. Nucleome is selected as the **authorized sequencing laboratory in Asia of the Vertebrate Genomes Project**. Our team has completed several next-generation sequencing & data analysis projects with **Indian & foreign clients from the USA, Australia, Netherlands, UK, Italy France, and Switzerland**. Nucleome Informatics Pvt. Ltd. is specialized in next-generation sequencing & bioinformatics analysis services providing the following NGS services with complete bioinformatics support:

Whole Genome Sequencing	Microarray Services
Genotyping by Sequencing (RAD Sequencing)	RNA Sequencing
Proteomics Services	Meta Genomics
Exome Sequencing	ChIP Sequencing
Bioinformatics Analysis	DNA Sequencing & Primer Synthesis

We request you to accept our proposal & provide us an opportunity to work with your esteemed organization.

Best Regards

Authorized Signatory
Nucleome Informatics Pvt Ltd

Technical Specification

Axiom™ Bovine Genotyping v3 Array (384HT format)

Total Number of samples: 4800

Concentration: 2-3µg, Volume:50µL, in DEPC or Nuclease free water,Elution buffer provided in the Kit

Product Overview

The Applied Biosystems Axiom Bovine Genotyping v3 Array has >63,000 markers and is designed for genomic and trait selection and parentage verification of cattle. The single-nucleotide polymorphisms (SNPs) on the array were selected based on their position in the bovine genome, ensuring even spacing. These include VIP trait-associated SNPs that are publically available, ISAG core parentage markers, and 44,000 markers from the Council on Dairy Cattle Breeding (CDCB). SNPs optimized for STR imputation (1) are also included in the array content. This array is also available in mini-96 format.

Traits associated with fertility are on the Y-chromosome, so over 500 markers on the Y-chromosome are included in this array. The array also contains >10,000 Bos indicus markers of approximate equal coverage across the Bos indicus genome to avoid gaps.

Applications

- Parentage analysis
- Identification of economically important traits
- Dairy evaluation
- Genetic improvement of pure lines

Specifications

Number of Arrays- 384

Format- 384 HT-Array Plate

Species- Bovine

For Use With (Application)- Microarray Analysis

Terms & Conditions:

Project Registration and Sample Shipment:

- It is mandatory to submit a sample submission form before the sample(s) shipment. Samples not accompanied with sample submission and project registration forms or incomplete information shall be kept ON HOLD until we receive the sample submission Form duly filled with complete information.
- Nucleome will follow the final quantity and concentration of samples checked at our QC lab.

Project Management:

- Nucleome considers the receipt of client samples or client PO as an acknowledgement and acceptance of the terms and conditions of this quote.
- Nucleome reserves the right to re-quote this project if the scope of the project changes, in such case Nucleome will not be required to perform the project unless both parties agree on the terms of the revised quotation.
- The service provided is for research purposes only, not for clinical or diagnostic use.
- We are ready to sign confidentiality agreement and work contract based on mutual agreement to protect any IP or our client's data.
- Turnaround time in the quote is calculated based on the input provided by the client. Any change in the date of delivery due to any reason will be updated to the client with proper justification and new expected date of delivery.

Sample and Data Storage:

- All remaining samples will be destroyed by Nucleome 6 months after data delivery and Nucleome will not be responsible for the return of unused samples.
- All data will be deleted by Nucleome 6 months after shipment to the customer. Please contact your Nucleome representative for the associated costs to retain data beyond the 30-day period.

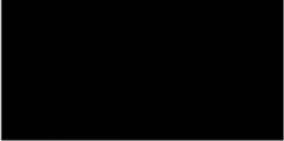

Validity & Delivery:

The validity of the contract is 24 months from the End date of the bid.

**Billing & Payment:**

- The price includes sample isolation, quality control, library construction, sequencing, data quality control and analysis.
- The invoice will be issued based on the services rendered according to this quote.
- Client can pay by Cheque / DD/ RTGS or WIRE transfer in favor of “Nucleome Informatics Private Limited”, payable at Hyderabad. Bank details will be provided along with the invoice.
- Upon Nucleome’s receipt of client samples or client PO, the client agrees to pay the entire amount of each invoice issued by Nucleome within 15 days from the date of the invoice.
- Price information is CONFIDENTIAL to the parties directly involved with this project; the sole authority of copyright laws shall be beheld by the PI only.
- The delivery shall be made on FOR basis to Slovak Agricultural University in Nitra, Slovakia-94976.

Dear Sir/Madam,

Thank you for placing your purchase order No: NIPL/MBE/21072021/01 Dated July 21, 2021 with us. order Description - Genetitan with Anceilleries.

We have processed the order as per the confirmation we will share the SO details at the earliest. and also you will be receiving another automated order confirmation email very soon.
