Diagram illustrating a longitudinal profile of a road section, showing elevation (m) on the vertical axis and stationing (km) on the horizontal axis.

The vertical axis ranges from 0.0 to 8.0 meters. The horizontal axis ranges from 20.00 to 62.50 km.

The profile shows a road surface (black line) and a proposed grade (red line). Key points are marked with red rectangles and labeled with stationing and elevation data.

| Stationing (km) | Proposed Grade Elevation (m) | Existing Road Surface Elevation (m) |
|-----------------|------------------------------|-------------------------------------|
| 20.00           | 178.00                       | 178.00                              |
