

- 
- A diagram showing a V-shaped structure. The left arm is horizontal and has four small circles (weights) hanging from it. The right arm is angled upwards and has three small circles hanging from it. The two arms meet at a vertex on the left.

- 

The floor plan shows a three-story building with a central corridor. The left side features a large rectangular room, likely a library or study, with a dashed line indicating a partition. The right side contains a dining area with a table and chairs, a kitchen area with a sink and stove, and a large open space. The central corridor is marked with a dashed line. The plan includes various rooms, including a bathroom, a kitchen, a dining area, and a large open space. The layout is symmetrical around the central corridor.

- 
- A white, rectangular, recessed ceiling light fixture. It has a simple, clean design with a slightly raised, beveled edge. The fixture is shown from a slightly elevated, angled perspective, highlighting its three-dimensional form. The surface appears smooth and matte.
