

PUBLIC ADDRESS / PA SPEAKERS / SOUND 100 V

SONORA-4TB

PA LOUDSPEAKER

DESCRIPTION

Low-impedance PA loudspeaker with 100 V line transformer

BENEFITS

Based on our extensive experience in the sound sector, FONESTAR has created SONORA.

SONORA is a series of loudspeakers especially designed for PA and background sound applications.

The excellent finish and elegant design allow for perfect integration into any space.

These speakers are fully suited for outdoor use as they have an aluminium grille and protection against water (IP-66) and marine environments.

In addition, SONORA provides excellent sound quality with crystal-clear, distortion-free sound.

All the necessary accessories for quick and easy installation are included: adjustable mounting bracket with weather treatment, stainless steel screws, and a steel safety cable.

APPLICATIONS

Expand product information on:
