Clarification 1: Gas Generators, MVP Bags and Transport Stands

Please, find the following clarification in regard to GG`s, MVP Bags and Transport Stands:

Question:

“Can you confirm if stands and bags are available for the Gas Generators and if so do we have to price the purchase of those separately, or can we state that our individual GG offer prices includes eustream providing the stand and bag that the GG is currently stored in/on?”

Answer:

The Promoter confirms that Gas Generators (GG) and MVP Bags and also Transport Stands are intended for sale as separate items, and thus are to be priced separately. It means that GG`s, MVP Bags and Transport Stands may be sold to different Buyers. Therefore, the price offered for GG should not include price for MVP Bag and Transport Stand but they both should be assured by the Buyer in case the Buyer`s Bid is not successful in MVP Bag and Transport Stand items.

After the Bids are submitted, the Promoter assumes to hold negotiations on Bids individually with each Bidder (who complies with participation conditions and submits Bid complying with requirements specified in Tender Specifications), where the question whether MVP Bags and Transport Stands should be items separate from GG`s or not, can be discussed whereas, upon results of such discussion, the list of items for sale can be modified and include both the MVP Bags and Transport Stands into the respective GG items. Subsequently, Bids should be updated with regard to such modification and just then, after updated Bids are submitted, we can open electronic auction.

Best regards
