Poznámka:								
Podrobná inventarizácia drevín v riešenom území bola vykonaná v priebehu júna až júla 2018, t.j. priemety korún stromov ako aj ich zdravotný stav sú z daného obdobia.								
Na základe rozhodnutia Obce Čifer ako príslušného orgánu štátnej správy č. Výst.CIF-859/2019/Má-1324 zo dňa 25.10.2019 bol k drevinám na výrub odporúčený navyše aj výrub dreviny č.251. Zamietnutý bol výrub drevín 544, 545, 530, 531 a 488.								
Projektant berie túto skutočnosť na vedomie, zamietnuté dreviny ponecháva v areáli, no nepreberá zodpovednosť za toto rozhodnutie - v prípade stromov č.544 resp. 545 sa jedná o jedince v zlom zdravotnom stave, ktorých prítomnosť môže ohroziť i okolité stromy, taktiež sa jedná o prehustenú výsadbu a bránenie tak vo vývine a raste okolitých jedincov s vyššou perspektívou vývoja.								
Stromy č.530 a 531 budú, vzhľadom na to, že sa nachádzajú na mieste budúcich parkovacích miest, v rámci areálu presadené.
