

PRIMAGARDEN

## MEANING OF LOGO

The crown of a tree depicted only with the geometric shapes in the shape of a cell, which is a basic "building block" of living organisms. The tree trunk is made up of human hands that symbolically hold this crown of trees and guard it. It shows our love for nature, the need to surround ourselves with and care for the environment. Different shades of green are monogamously derived from our primary green color. They show the colors of vegetation and nature around us.

# GARDEN FOR YOUR SOUL

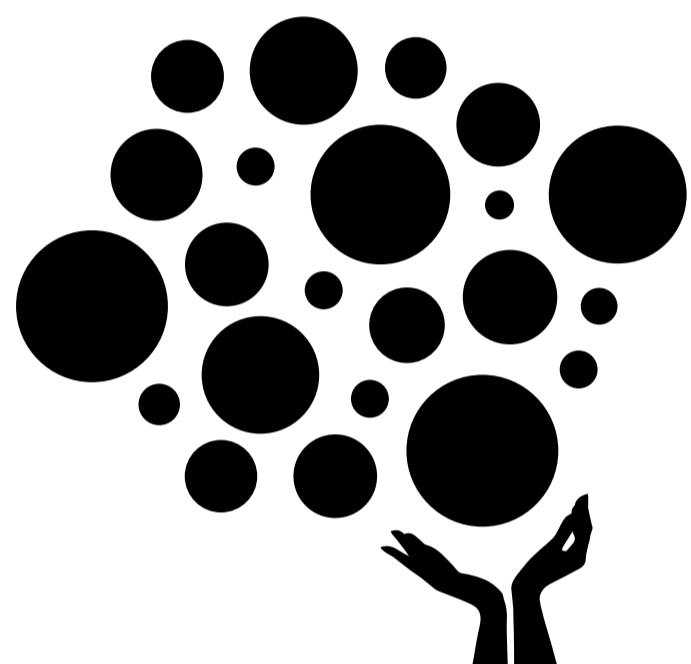

A society grows great when old men  
plant trees whose shade they know  
they shall never sit in
