

Play value

The Small Fish with the peepholes is a playing house which lends a special character to the playground. Its appearance and attractive decorative paintwork make it a popular attraction point for small children. The roof surface, which is open on both sides, has appealing peepholes set into it. The inside space is a meeting point as well as an area for play activities. Children can hide inside the tummy of the fish, keep a lookout or make themselves comfortable, just as if they were in a little house.
