

Technical drawing of a circular manhole (šachta) with a pump and drainage system. The drawing shows a top-down view of the manhole structure, which is circular with a diameter of 990 mm. The manhole is divided into two main sections: a lower section (A) and an upper section (B). The lower section (A) contains a pump unit with a diameter of 185 mm. The upper section (B) contains a drainage system with a diameter of 138 mm. The manhole is surrounded by a concrete structure with a thickness of 100 mm. The drawing includes labels for various components and dimensions:
