| | | Schémy a diagramy nemajú jasnú legendu, niektoré sú zlúčené. V niektorých schémach chýba preklad z Angličtiny do Slovenčiny/ Češtiny | | | Ťažká čitateľnosť legend - veľmi podobné farebné odtiene, príliš veľa informácií. | Diagramy sú bez nadpisov ako doplnok textov a zlučujú viacero tém, alebo sa dáta k diagramu nachádzajú na inom paneli. |

| | Notes | | | | | |
| | | Schemes and diagrams doesn't have clear legends. Some of them are combined. Missing translation in some schemes form English to Slovak or Czech | | | Hard to read legends - similar color shades, too much information. | Diagrams are without titles as a supplement to the texts and combine several topics, or the data for the diagrams is located on another panel. |
