Call for tender - market research

In connection with the project

Inovation of packing technology in FYTOPHARMA company

we would like to ask you to participate in the market research of potential suppliers.

"The project is co-financed by the Rural Development Program of the Slovak Republic 2014 - 2020,
measure: 4 - Investments in tangible assets,
Sub-measure: 4.2 - Support for investment in the processing / placing on the market and / or development of agricultural products,
Area 7. Production of compound feedingstuffs and other processing or market placing not mentioned in the previous points, e.g. processing of honey, processing of medicinal plants, seeds and seedlings, etc.,
call no. 51 / PRV / 2021 "

The market research is carried out in order to determine the estimated value of the contract in the procurement process.

The estimated value of the contract is determined as the arithmetic average of the prices found. The estimated value of the order is determined as the price excluding VAT.

3. Description of the subject of the market research

The subject definition of market research is given in Annex no. 1 Detailed technical description and data declaring the technical parameters of delivered subject.

4. Method and instructions for submitting proposals

Proposals must be submitted exclusively through the JOSEPHINE electronic procurement system, within which you have also received this Call for Proposals - market research.

"The proposer shall submit a price offer based on a given template consisting of:
• Annex no. 1: Detailed technical description and data declaring the technical parameters of the delivered subject and
• Annex no. 2: Price of the delivered subject
of this call for tender. "

The participant of the tender submits the completed Annex no. 1, in which it shall specify the specific parameters of the equipment offered, filling in:

- **Parameters** (values) of the offered technology
- **The commercial name of the manufacturer** of the offered technology
- **Type designation** of the offered technology
- Place and date the offer preparation
- Stamp, signature

If a specific manufacturer, production process, trade name, patent, type, area or place of origin or production has been used in the description of the subject of this call for tender, the tenderer may also submit a tender for the technical and functional equivalent. The equivalent offered must have the same or better technical and utility parameters.

At the same time, the proposer submits a price offer, which must be comprehensive for the entire subject (ie the entire logical unit), ie for all items listed in Annex no. 2, filling in:

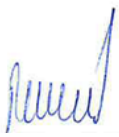

- Identification data of the tender participant
- **Name of the manufacturer, type designation** of the offered technology
- Unit price in EUR without VAT
- Place and date of preparation of the offer
- Stamp, signature

The price offer submitted by the tenderer must be signed and stamped by the tenderer's representative in the market survey (a scan of the original is submitted).

5. Deadline for submission of proposals

The proposer shall submit the proposal exclusively via the JOSEPHINE electronic procurement system by 18th august 2023 by 10:00 CET.
