2.1. Procedure

Title: Ball Valves DN 300 – DN 1400

Description: Supply of ball valves from DN 300 (included) up to DN 1400 (included), PN 80 for high-pressure gas pipelines along with accessories is the subject-matter of the contract. Also, the supply of actuators for ball valves, which may include, for example, electro-hydraulic, electric, hand driven (manual) or other actuators as well as supply of optional accessories (e.g. extension stems, etc.) and related services – ball valves commissioning pursuant to applicable legal regulations and training course for operational personnel for actuators operation and control is a part of the contract subject-matter. The ball valves and actuators (including accessories) that a tenderer will offer, must comply with requirements of specifications a technical-delivery conditions Ball Valves for High-Pressure Gas Pipelines DN 300 – DN 1400 and Actuators for Ball Valves for High Pressure Gas Pipelines DN 300 – DN 1400. Technical-delivery conditions constitute annexes no. 1, and 2 to the Commercial and Contractual Terms & Conditions constituting Annex 1 to the Tender Documents. A detailed specification of the subject-matter of the Contract is provided in the Tender Documents. The contract subject-matter is divided into three parts thereof. A tenderer may submit its tender for any part of the contract subject-matter or any combination thereof provided that it will prove its compliance with the participation conditions presented in Article 3 of the Tender Documents for such part or parts of the contract subject-matter. Every part of the contract subject-matter shall be evaluated separately. Rules for evaluation of tenders are presented in the Tender Documents. As the accurate specifications of ball valves that the Contracting Entity will purchase during the framework contract, are not known at the time of this tendering procedure notification, the Contracting Entity has prepared a sample of ball valves for the purposes of this Competition, which is presented in description of each part of the contract subject-matter and specified in detail in Annex 2 to the Tender Documents. This ball valve sample is dedicated only to purposes of evaluation of tenders in this Competition and does not need to be any subject of a purchase order issued by the Contracting Entity. The Contracting Entity shall provide for accurate and binding specifications of individual ball valves, actuators and accessories thereof in the time of awarding individual partial contracts upon which the framework contract will be performed.
