

rez A-A

This architectural cross-section, labeled 'rez A-A', illustrates the structural details of a building. The drawing includes the following elements:

- Roof:** A flat roof labeled 'S STRECHA PLOCHÁ - zelená rozhodníková' with a height of +7,900. The roof structure includes a sloped insulation layer and a horizontal IPE 180 beam.
- Walls and Columns:** The walls are shown with various insulation and construction layers. A column labeled 'M1' is positioned on the left side. A staircase is shown with a slope of 1:1.5.
- Floors and Foundations:** The ground level is marked as ±0,000. The foundation is shown below ground level, with dimensions indicating a depth of -3,900. The foundation is labeled 'P1'.
- Dimensions and Elevation:** Numerous dimensions are provided for structural elements, including wall thicknesses, column heights, and floor levels. Key elevations include +6,050, +3,200, +3,450, +7,400, +7,900, ±0,000, -0,150, -0,800, -1,300, and -3,900.
- Structural Details:** The drawing shows the connection between the roof, walls, columns, and foundation, including the use of reinforcement and insulation.
