

Architectural cross-section drawing of a building with a gabled roof. The drawing shows the structural frame, including the roof truss system, walls, and foundation. Key dimensions and elevations are indicated:

- Elevations:**
  - Roof peak: +13,300
  - Right roof edge: +11,100
  - Ground level: ±0,00
  - Foundation level: -0,100
  - Basement floor level: -0,950
- Dimensions:**
  - Roof height from ground: 3300
  - Roof slope angle: 8°
  - Wall height: 4140
  - Basement height: 10905
  - Basement floor thickness: 350
  - Foundation width: 600
- Structural Details:**
  - Roof truss system with diagonal bracing.
  - Walls with cross-bracing.
  - Foundation with cross-bracing.
  - Basement floor with cross-bracing.
