

## **Gas Generator S/N 1790-802 (Unit R1):**

<b>Location:</b>	KS02 Jablonov nad Turňou, Slovakia
<b>Type:</b>	SGT-A35 G62 DLE
<b>Year of Installation:</b>	1997
<b>Operated hours:</b>	44 982
<b>Fired starts:</b>	1 138
<b>Last overhaul:</b>	Midlife overhaul - October 2006, TCT Canada
<b>Last L1 inspection:</b>	15 July 2022
<b>Disassembly date:</b>	22 December 2023

**Preservation since disassembled:** Engine inhibited before disassembly, stored on LOT transport stand sealed in MVP bag in heated building;

**Note:** The GG is offered as is, without transportable container/stand. The Buyer is responsible for transport container.

For details on GG condition, refer to the report of R1-SN-1790-802 last borescopic inspection.

**Gas Generator S/N 1790-834 (Unit R2):**

**Location:** KS02 Jablonov nad Turňou, Slovakia  
**Type:** SGT-A35 G62 DLE  
**Year of Installation:** 1999  
**Operated hours:** 34 682  
**Fired starts:** 951  
**Last overhaul:** Midlife overhaul - July 2008, TCT Canada  
**Last L1 inspection:** 22 July 2022  
**Disassembly date:** 12 September 2023

**Preservation since disassembled:** Engine inhibited before disassembly, stored on LOT transport stand sealed in MVP bag in heated building;

**Note:** The GG is offered as is, without transportable container/stand. The Buyer is responsible for transport container.

For details on GG condition, refer to the report of R2-SN-1790-834 last borescopic inspection.

**Power Turbine S/N MO900 (Unit R1):**

<b>Location:</b>	KS02 Jablonov nad Turňou, Slovakia
<b>Type:</b>	RT62
<b>Year of Installation:</b>	1996
<b>Operated hours:</b>	44 982
<b>Fired starts:</b>	1 138
<b>Last overhaul:</b>	Not performed yet
<b>Last L1 inspection:</b>	15.July 2022
<b>Disassembly date:</b>	Not yet disassembled, stay in heated hall; Preliminary date of dissasembly completion 26 July 2024;
<b>Preservation since disassembled:</b>	Not applicable

- PT Parts for sale:** Items for sale as a set:
- Rotor with first and second stage turbine wheels, labyrinth seals and diaphragm;
  - Inlet diffuser, with diffuser casing and first stage nozzle vane;
  - Air manifold (cooling);
  - Auxiliary drive;
  - Journal bearings (disc end and coupling end);
  - Thrust bearing;
  - Thrust collar;
- Optional item:
- Main lube oil pump;

**Note:** Turbine rotor and stator is offered as is without transportable container/stand. The Buyer is responsible for transport container.

**Power Turbine S/N MO967 (Unit R2):**

<b>Location:</b>	KS02 Jablonov nad Turňou, Slovakia
<b>Type:</b>	RT62
<b>Year of Installation:</b>	1999
<b>Operated hours:</b>	34 682
<b>Fired starts:</b>	951
<b>Last overhaul:</b>	Not performed yet
<b>Last L1 inspection:</b>	22.July 2022
<b>Disassembly date:</b>	Not yet disassembled, stay in heated hall; Preliminary date of dissasembly completion 21 June 2024;
<b>Preservation since disassembled:</b>	Not applicable
