[illegible]

Diagram showing the connection of a 10kV busbar (VN ROZVODNA) to a transformer (TR) and a switchgear (K). The busbar is connected to the transformer and the switchgear.

A diagram of a two-story building. The ground floor is divided into two equal rectangular sections. The right section is highlighted in light orange. A red arrow points to the right wall of this section. The second floor is a single rectangle above the ground floor, also divided into two equal sections. A small black structure is visible on the roof.
